ABOUT ME

Junior Backend Developer skilled in Python and Django, focused on solving real-world problems through code. Currently studying Information Systems in Finance & Banking at Tashkent State University of Economics (Evening, 2023–2028). Combines financial system knowledge with practical experience in REST APIs and PostgreSQL to deliver impactful backend solutions.

EXPERIENCES

- Technical & Accounting Assistant
Mehr Maks Servis (Supermarket) | 2023 – Present
- Maintained store IT infrastructure, POS systems, and networks for smooth operations.
 - Managed financial documentation, daily sales data entry, and workflow digitalization.
 - Resolved technical and software issues promptly to ensure uninterrupted service.
- Backend Developer (Intern)
Najot Ta'lim (Django Backend Course) | Feb 2025 – Sep 2025
- Developed RESTful APIs using Django REST Framework (DRF).
 - Built CRUD systems and managed databases (SQLite, MySQL, PostgreSQL).
 - Implemented secure user authentication using JWT and customized Django Admin.
 - Managed version control, branching, and collaboration via Git & GitHub.
 - Created a robust portfolio of backend applications to build practical skills.
